**Martin Scholarship Endowments Established**

**Doris J. Martin** of Raleigh has established two scholarship endowments in memory of her late husband, **Donald C. Martin** (PhD CHE ’65). The $100,000 gift will support the **Donald C. and Doris J. Martin Scholarship in Computer Science** and the **Donald C. Martin Scholarship in Chemical Engineering**.

Martin joined NC State University in 1960 and was a faculty member in the departments of Chemical Engineering and Computer Science. From 1974 to 1986 he served as head of computer science and played a key role in the department’s rapid growth.

**Dr. Nino A. Masnari**, dean of the College of Engineering, said of the gift, "This is an investment in tomorrow’s chemical engineers and computer scientists. We are grateful to Mrs. Martin for her generosity and commitment to the College of Engineering. Her gift will serve as a lasting commemoration of the many contributions Don made to the College and to NC State."

Each of the scholarship endowments is expected to yield a minimum of $2,000 per year to be awarded to qualified students, starting in the fall of 2007.

The department of computer science would like to extend special thanks to alumnus, **Jim Faulkner** (BS CSC ’78, MS PSY ’78), who has donated $2,000, which will allow the initial scholarship in computer science to be awarded in the fall of 2006.

Anyone wishing to contribute to either of these scholarship endowments should send their check (made payable to “NC State Engineering Foundation”) to Ken Tate, Campus Box 8206, Raleigh, NC 27695. Please note the specific “Martin Scholarship” in the memo section. All contributions to these endowment funds are 100% tax-deductible.
