NC State is an EOE/AA employer.

Please apply through the website http://jobs.ncsu.edu and searching by position 00000524.

Please provide a CV, research and teaching plan, and list of references.

For further information, please contact the search committee using <CBE_Search@ncsu.edu>.

For ADA accommodations, contact Ms. Angela Efimenko (aefimen@ncsu.edu; 919-515-4251).

The Department of Chemical and Biomolecular Engineering at North Carolina State University seeks highly qualified candidates to fill two tenure-track faculty positions in chemical engineering at the rank of Assistant, Associate, or Full Professor. Applicants should possess a Ph.D. (or equivalent) in chemical engineering or related disciplines and demonstrate excellence in scholarship and teaching potential.

Successful candidates are expected to establish vigorous chemical-engineering research programs of international reputation, teach undergraduate and graduate chemical-engineering courses, and contribute to departmental, college and university activities. The search committee will give higher priority to the overall originality and promise of a candidate's work rather than to the area of specialization.

The Department offers exciting opportunities for professional growth in a creative and collaborative atmosphere of multidisciplinary research and innovative teaching. It is integrated within the vibrant and future-oriented science community in the Research Triangle Area. To find out more about our department, please check out our web page at http://www.che.ncsu.edu.
